Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 08 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Increasingly cloudy with rain later.

Today:
A chilly start on Monday under clear intervals but becoming increasingly cloudy through the day. Rain spreading across the region later in the afternoon as the southwesterly breeze picks up. Maximum temperature 14 deg C (57 deg F).

Tonight:
Outbreaks of rain continuing through the evening. Drying up for a time before further rain arrives for Cumbria in the early hours. Remaining mild overnight with a brisk southwesterly wind. Minimum temperature 8 deg C (46 deg F).

Tuesday:
Rain slowly moving south through the day, turning lighter and patchier as it does so, but not clearing the south until after dark. Winds easing through the afternoon. Maximum temperature 15 deg C (59 deg F).

Outlook for Wednesday to Friday:
A fair amount of dry weather on offer, if rather cloudy at times. The cloud may be thick enough for the odd spot of rain. Some overnight fog possible.
